DO YOU WISH YOUR COMPANY HAD A **CENTRAL ORDERING SOLUTION?**

FULLY INTEGRATED E-COMMERCE SOLUTIONS

Arcon Solutions is now offering fully integrated e-commerce solutions for all current and future clients. Our e-commerce team has the capability to create a branded platform that will provide a singular purchasing solution for your company. Our business-to-business e-commerce system can be customized to meet your specific needs. Our stores are built to help your company succeed and assist you in purchasing items more efficiently. We provide two primary sites that offer extensive flexibility.

INTERNAL WEBSITE

RESTRICTED ACCESS, COMPANY SPECIFIC

An internal website is a company-specific website that is secured by specific users with restricted access. These websites are used for employees to purchase promotional items, marketing material, and apparel to promote brand exposure.

With a state-of-the-art real-time proofing system our websites can facilitate multiple orders at any moment. Whether your products are on demand or inventoried, Arcon will facilitate all of your needs.

FRANCHISES”

RETAIL *WEBSITE*

PUBLIC ACCESS, WEARABLES, AND PROMOTIONAL PRODUCTS

A retail website is a public access website that can sell to the general public. This website will be used strictly for wearables and inventoried promotional products.

Retail sites are for business-to-customer or business-to-employee sales. For example, these could be used as platform for your employees to buy logo'd gear.

FREQUENTLY ASKED **QUESTIONS**

WHAT WILL THIS COST ME?

Each company will have a consultation before the store is implemented. After we identify your company's specific needs and wants, we will prepare a reasonable quote.

IS THERE A LIMIT TO THE NUMER OF PRODUCTS OUR COMPANY CAN PUT ON THE WEBSITE?

No, we will never cap your company at how many products you can have.

DOES EACH PERSON AT THE COMPANY GET THEIR OWN LOGIN?

Yes, that is what we recommend. Each user, branch, or department should have a unique login.

CAN WE UPDATE THE SITE AFTER IT LAUNCHES?

Yes, Arcon has a full-service e-commerce department that can make adjustments, improvements, and additions throughout the life of the store.

WHAT PAYMENT METHODS ARE ALLOWED ON THE SITE?

Arcon uses a secure credit card processing system. There is also a possibility of all orders being billed and your company can pay with a check for goods. Every company is different and we are flexible with integrating your current structure into our system.

DOES ARCON OFFER TRAINING?

Our e-commerce department can create training videos and can schedule training sessions in person or online.
