Arcon Solutions Branding Guidelines

The Overview

The extensive work of creating a cohesive brand design is complete; we want to make sure it stays that way when it heads out into the world. Following these guidelines will ensure the logo is used in a way that upholds an aesthetic standard and keeps our brand looking professional and consistent.

The Logo

Primary Logo

Arcon Solutions logo is a sleek, bold and minimal design. The logo is designed to represent the idea of containing our services together in one place (the box). The logo can also be used without the box at any time.

These are the main logos that will be used across primary brand applications. This trademark helps audiences easily identify Arcon Solutions' brand, web presence, ads, self promotions, and enhances the professionalism of the brand. It is essential to the success of the brand that the logo always be applied with care and respect in every application according to these guidelines.

ARCON SOLUTIONS.

Color Usage

The color usage for Arcon Solutions is fairly minimal. The logo will mostly be used in black and white with a pop of purple against neutral backgrounds (A & B), but can be also used as a solid black or white against different color backgrounds (C, D, E & F).

The Logo Construction

The following illustration shows how the logo should always look if it may ever need to be constructed.

Alternative Logo

Our alternative logo can be used in replace of the primary logo, but should never be used directly next to the primary logo. This would look repetitive and isn't a good use of the brand elements.

ARCON.

Clear Space

To ensure legibility, always keep a minimum clear space around the logo. This space isolates the mark from any competing graphic elements such as other logos or body copy that might conflict with, overcrowd, and lessen the impact of the logo. The minimum clear space is defined as the height of the S. This space must always be maintained as the logo is proportionally resized.

Misuse

Misuse

A few rules are necessary for maintaining the integrity of the brand. Don't compromise the overall look of the logo by rotating, skewing or distorting in any way – that includes adding unnecessary and unattractive text decoration like drop shadows and outlines. Here are a few examples of some ways you should NEVER ever consider using the logo.

do not -
Apply outlines

do not -
Apply dropshadows

do not -
Apply gradients

do not -
Skew, stretch

do not -
